RE: ACTION ITEMS

RE: EMERGENCY COMMUNICATIONS SYSTEM PROJECT - CONSULTANT PROPOSAL
R. Bryan David, Interim County Administrator, explained that staff had contacted a qualified consulting firm regarding several near-term needs of the Emergency Communications System as well as the future upgrades necessary to meet regulatory requirements and standards. He provided the Board with a copy of the proposal from RCC Consultants, Inc., which he explained was competitively procured in compliance with the County's Procurement Policy.

Mr. David noted that at this time, staff recommended the Board of Supervisors approve the engagement of RCC Consultants, Inc., for the services set forth as Task No. 1 only, with a drive test at a fee of $25,950. He further noted that the other tasks were provided for informational purposes at this time. Mr. David concluded by reporting that there were sufficient funds available within the CIP budget for the Emergency Communications System Project to cover this task.

Discussion ensued among the Board regarding: what product or information the County would have at the conclusion of the proposed Task No. 1; the idea that the County would have confirmation of what changes were required in the Route 3 Area; long-term issues with the Emergency Communications System; the P25 standard that was driving this system; whether or not this project would have to go out to bid again; the life safety concern; and the immediate need for full coverage in all areas of the County.

Chairman Goodwin expressed concern over the number of miles and the associated cost of the mileage in the proposal, and requested that staff examine that aspect more closely before executing the agreement.

Mr. Frame moved, seconded by Mr. White and carried, to authorize the County Administrator to enter into an agreement with RCC Consultants, Inc. for the services set forth as Task No. 1 in the proposal dated February 3, 2014, at a cost not to exceed $25,950.

Ayes: Abbs, White, Goodwin, Crozier, Frame. Nays: None.

RE: AWARD OF CONTRACT FOR THE ANIMAL SHELTER GENERATOR PROJECT
Stephanie Straub, Procurement and Grant Coordinator, stated that Orange County released a solicitation on December 3, 2013, for a Generator Solution for the Animal Shelter. She noted that staff advertised the Request for Proposal on the County website, in The Orange County Review, and on eVA (Virginia’s e-procurement website), reaching approximately 4,829
vendors. She further noted that staff held a mandatory pre-proposal meeting on December 17, 2013, which was attended by nineteen (19) vendors and Orange County received a total of five (5) responses, which were reviewed by the Selection Committee.

Ms. Straub explained that the Selection Committee studied the responses in full and felt it was most advantageous to award a contract to All Install, LLC. She indicated that All Install, LLC specialized in generator installation and provided a thoughtful solution that included installation of a 70kW propane generator, a five (5) year warranty, and one (1) year of maintenance. Ms. Straub also noted that, additionally, the company had experience working with animal shelters, commercial, and residential clients.

Ms. Straub concluded by noting that the total cost of the project was $48,929 and because of the generosity of the community, this CIP project would be funded solely by donations.

Mr. Frame moved, seconded by Mr. Crozier and carried, to authorize the County Administrator to enter into a contract with All Install, LLC for a Generator Solution for the Animal Shelter.

Ayes: Abbs, White, Goodwin, Crozier, Frame. Nays: None.

WHEREAS, the Board of Supervisors has received a request from concerned citizens for a speed study on Route 611, Zoar Road, as travelers appear to be using speeds in excess of the current road conditions; and

RE: APPOINTMENTS TO BOARDS, COMMISSIONS, AND COMMITTEES
There were no appointments at this time.

RE: DISCUSSION ITEMS

RE: PROPOSED ZONING ORDINANCE TEXT AMENDMENTS
Gregg Zody, Planning and Zoning Director, presented three (3) proposed Zoning Ordinance text amendments to the Board for their consideration in initiating Planning Commission action: the addition of “farm stand,” “wayside stand,” and “farmer’s market” as permitted uses
and Special Use Permits in the R-1 Districts; the definition of “development”; and the definition and applicable zoning districts for “motorcycle, all-terrain vehicle, watercraft repair and storage.”

Discussion ensued among the Board regarding: the definition of farm stands and markets; potential enforcement problems; the differentiation between farm stands, wayside stands, and farmer’s markets; whether or not the uses should be permitted in residential zonings; potential action for the Planning Commission; and inclusion of lawn mowers or small engine repair.

By consensus, the Board initiated Planning Commission action on the attached Zoning Ordinance text amendments concerning farm stand, wayside stand, and farmer’s market; definition for development; and definition for motorcycle, all-terrain vehicle, watercraft repair and storage.

RE: PLANNING COMMISSION SALARY
Chairman Goodwin explained that he brought this item before the Board for their consideration at the request of the Planning Commission. He explained that the frequency of the Planning Commission’s meetings may be changing, and their work may become more in-depth, with the upcoming ordinance re-writes and amendments, and there was interest in increasing their per-meeting salary.

By consensus, the Board requested that staff reinstate the Planning Commission’s salary to the $100 per meeting rate from previous budget years for the Board to consider as part of the FY15 budget process.

RE: ALTERNATIVE TO THE FIRE CODE
Vice Chairman Frame explained that since the determination to not implement the full Fire Code had practically been made, an idea had been raised regarding the feasibility of voluntarily reviewing businesses for any problems.

John Harkness, Fire and EMS Chief, explained that because of the County’s limited resources, it may be difficult to provide that service. He also indicated that the staff member performing the inspection, even on a voluntary basis, would still be legally obligated to report the violations through the State Fire Marshal, adding an undue burden of liability and documentation.

Mr. Frame explained that, based on Chief Harkness’ recommendation, he would not recommend further exploring this alternative; however, he was interested in the continuation of public awareness and education efforts.

By consensus, the Board discussed an idea as an alternative to implementation of the full Fire Code, but determined that staff should instead just continue their public awareness, education, and outreach efforts on the pertinent topics contained within the Fire Code.

RE: EMPLOYEE WELLNESS PILOT PROGRAM
Supervisor Abbs introduced an idea for an Employee Wellness Pilot Program to the Board. She explained that there was currently an opportunity for employees to participate in a payroll deduction for gym memberships, but she wanted to propose a more comprehensive wellness program to be available to all employees. Ms. Abbs explained that she was seeking support from the remainder of the Board to have staff move forward with researching such a wellness program that could then be presented to the Board for their consideration.
Discussion ensued among the Board regarding: improved health of the workforce; promotion of healthy lifestyles and choices; funds that were possibly available to re-program for this initiative; and the idea of beginning this pilot program on July 1, 2014.

By consensus, the Board requested that staff gather more information regarding the creation and implementation of an Employee Wellness Pilot Program, including offering of a payroll deduction, possible employee reimbursement, and criteria of the program.
